NEW FRONTIERSMEN TRAIN REDS AT TAXPAYERS' EXPENSE
Voters Outraged As Military Equipment, Jets Go To Tito

FACTS: Eight Yugoslav Air Force men are being trained at Perrin Field, in Texas. The Pentagon is known to be planning to train others at Lowry Field, in Colorado. Very likely, there are other such plans.

The U.S. has sold approximately 135 F86D Sabrejet fighters to Tito since January, 1961. Deliveries are also being made of 70 Navy TV2 planes under a giveaway engineered in 1959. Since 1949, the U.S. has supplied $2.28 billion in economic and military aid to Yugoslavia, not counting outright sales of military equipment.

> Tito supported Soviet policy in recent Belgrade Conference. Anti-communists know that Tito is pro-U.S.S.R. and will line up against America in any showdown.

ACTION: Three things must be done. First, all communists must be removed from American soil. Second, all deals with Tito must be cancelled and no more aid sent. Third, those responsible for this aid and comfort being given to the enemy must be exposed for what they are.

> In Texas, outraged citizens have set up the NATIONAL INDIGNATION COMMITTEE (Box 2684, Dallas 21) and have been holding rallies in protest. The press in the North has generally suppressed the entire story--including the news of the fabulous rallies in Texas.
